NEGOTIATING CONTRACTS IN UPSTREAM OIL AND GAS

This course is designed for oil and gas upstream professionals, who have exposure to contractual terms and conditions. Training will be geared around specifics of the drilling contracts with the mix of examples from the oilfield supplies and services sector.

- Learn drafting key commercial clauses in drilling and oilfield services contracts;
- Take ownership of negotiations of key commercial and technical clauses;
- Enhance ability to negotiate drilling, supply and services contracts in the oil & gas industry;
- Get clarity on operator/contractor contractual position and best industry practice;
- Understand when to flag legal issues related to contracts on a timely basis;
- Improve company's contracting practice through efficient contractual risk mitigation.

OLGA LABAI

will deliver the course, she has more than 22 years of experience in contracts, commercial and legal matters, in the international oil and gas, with a particular focus on upstream projects.
